The Ark by Jeanne White Eagle

In the winter of 2010 I awoke from a dream and heard the words "**You are to build an Ark.**" I remember feeling a little shocked and puzzled. And then I thought of the movie called "Noah's Ark," a comedy in which a modern day businessman was

told "by God" to build an Ark, an actual physical Ark. Luckily, I didn't get it that I was to rush out and buy loads of wood, nails, etc. and to start hammering away on a structure whose passengers were to be pairs of exotic animals and human beings willing to go on such a ride. Instead, what I saw was a different kind of Ark, a phenomenon that was born a little over a year ago.

What was to have been an advanced training experience for those who have participated in the ceremonial singing dance called the "For the One" Dance, turned into something that was no less than a miracle, leaving those of us who came together in awe of what we know now is possible for an entire world. A group of some thirty individuals from different countries came together and created a safe, authentic and loving haven within which to ride out the transformations that are now here. There in front of me was the dream I had been given. This was the "Ark".

The times we're living in now are those that the Mayan and Hopi prophecies speak of, as well as legends and prophecies from many different cultures. Mayan Elders have told us that *we are in the times where even the most unaware will become aware that something out of the "ordinary" is taking place.*

And so, what often happens when change occurs, particularly at the depth we now find ourselves? Many people become fearful, rash, chaotic. And unfortunately, common byproducts of this kind of fear are violence, confusion, and spiraling chaos.

So, why an Ark??? (con't on page 5)

So, why an Ark??? In this case it is to provide a metaphoric and energetic vehicle within which we can safely place ourselves as we move through the *Transformation* that has been prophesied for centuries and that now is here.

The next two years are crucial. How each individual lives his or her life can literally determine the direction in which the world will move. Sound crazy?

Maybe. Maybe not. Is it possible that many of us that are here now made some kind of an agreement eons ago to be here in this specific place and time? And is it possible that we agreed to be here to *help love the mass consciousness through the extraordinary birth that is unfolding?*

If you think this is at all possible, then *where* do we begin?? *How* do we begin?? Maybe we begin with each other, caring for and being kind to each other, being honest with each other and in integrity with ourselves, and always in a loving way, *even when anger and differences emerge*. It is finding out what might be possible for a world that presently seems to be spinning out of control.

You don't have to be with us physically to be part of this Ark, though we have committed to create spaces around the world so that Ark Pods can manifest if there are people who wish this to happen. *** NOTE: *In another couple of years, most likely this amazing Ark will have served its purpose and can cease to exist, at least in this form. For now, it is a place to realize you're not alone as you go through your own personal changes and as more global changes begin to happen around you.*

Something extraordinary is taking place on this planet. Things are shifting. This Ark? It is not exclusive. It is for anyone wants to be a part.

And until we have our next Gathering of the Ark, **SING**. Create a song each day, no words, no thinking. Simply let the sounds being born inside of you come and in that vibration we will find each other and together we will hold our world in loving hearts as this global transformation unfolds.

Hope to see you at the next Gathering.

**Much Love,
Jeanne**

Jeanne and John Announce New Executive Director of the For the One Organization

The For the One Organization is growing beyond the abilities of Jeanne and John and the local coordinators to schedule and manage all of the events that are planned. These events include not just the For the One Dances, but also Facilitator trainings in the Community Building process, Chief & Crew training events, workshops, and Ark Gatherings. In addition, Jeanne's new vision of a For the One University is beginning to demand attention. For this reason, we have reached out to a special person for help, and she has said "Yes!"

We are proud to announce **Candy Barbee** as the Executive Director of the For the One Organization. Jeanne and I have known Candy for 16 years, and have come to know and love her multiple talents. She is a people-oriented, energetic networker and organizer with demonstrated, sensitive leadership skills. She will be working with the International and local coordinators to schedule For the One Dances around the world, and with many of you to plan, schedule and deliver other events during the year. We consider her a Godsend. We hope you will too.

Candy served on the Center for Peace Council for 13 years, an organization that operates on consensus. She is a trained Community Building Facilitator, and a trained facilitator in the "Dismantling Racism" program. She has been involved in the international "More To Life Program" since 1995. And, she comes to us after a role as Director of a non-profit community-based social, economic and racial justice organization.

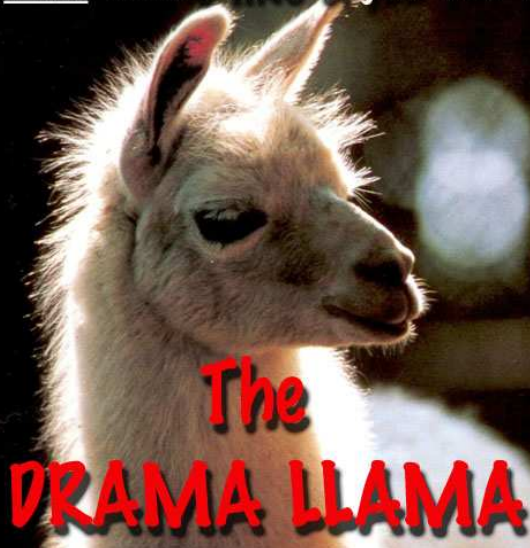

Candy, Jeanne and I have grown up together in the ceremonial spiritual dance community. Candy has been a dancer since 1995, the year that we met her. She has danced 10 dances each of the Drum Dance and Web of Life Dance. She had the vision for the Corn Harvest Dance and was its Chief for 7 years. She has danced the For the One Dance and Long Dance several times and chiefed the Drum Dance. She has also served all of these dances plus the Star Dance and Sun Moon Dance in capacities such as alpha dog, dog soldier, coordinator, drummer, kitchen angel, moon mother and fire keeper. She is a Chief of the For the One Dance, and has traveled with us around the world to places such as Germany, Norway, Israel and South Africa. She is a member of the For the One Ark.

We are very lucky to have her.
