The purpose of the 4th day of the Dance, **Heart Connection Day**, is to set aside space for participants of the Dance- both dancers and crew- to be together in a heart space without ceremony. All too often the last day of the Dance (Sundays in most countries) becomes rushed to get everyone packed up, have the feast, have the sharing, have the giveaway, take down the arbor and clean-up everything.

We have added another day to let Sunday (or the last day) slow down a bit. To have some time to BE together without the rush and all the Do-ing.

If your schedule does not permit Heart Connection Day, please know it is not mandatory and that you will be sent on your Way with love and hugs and blessings.

But, if you can stay and relax and Be with us, there are blessings to be have in the connecting.

Communicate with each other on our facebook page- For the One Community.

We have about 70 members right now.

See you there! Post your comments and photos and read what others have to say.
